

Transform the way your organization works.

Right now, life science leaders want to orchestrate positive change, but have too much to work on and not enough time to get it done.

Sound familiar? We get it.

At Enterey Consulting, we believe you deserve the support required to get the job done right. We also know that you need proven process improvement and effective project management solutions to push your initiative across the finish line.

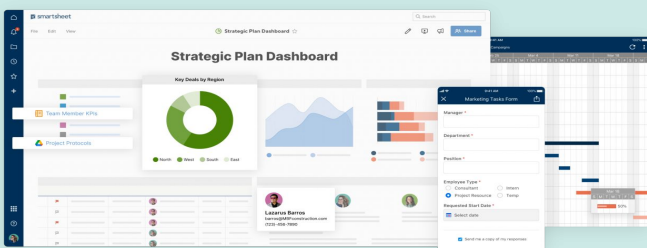

Smartsheet: A platform for Project Portfolio Management

Smartsheet provides a transparent and holistic view of all current activities to standardize methodologies and maximize efficiency for both internal and external workflows on all levels, leading to effective executive-level decision making clearly aligning with objectives.

What was Enterey's process?

- Developed a methodology for overall portfolio management
- Defined current state portfolio of projects
- Developed a fully automated portfolio dashboard
- Established formal portfolio management process cadence
- Developed key tools and templates
- Developed supporting processes

Why is Smartsheet useful for PPM?

- Decreased documents associated with portfolio from **137 to 1**

- Decreased required data input by project leads by **47%**

- Increased on-time delivery status updates from **35% to 95%**

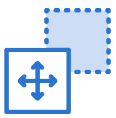

- Increased visibility of all activities to executive leadership from **10% to 100%**

- **\$1.5 Million** estimated 5-year savings for PPM process

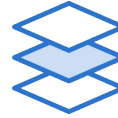

Smartsheet is loved by enterprises around the world.

Businesses across every industry achieve more with Smartsheet. More than 83,000 brands – over 90% of the Fortune 100 – use Smartsheet’s work execution platform to manage everything from automating process workflows to executing strategic initiatives. As a Smartsheet partner, Enterey is perfectly situated to ensure that your team’s transition to Smartsheet is seamless and provides maximum return on investment.

Adaptability

With an intuitive interface and prebuilt templates and components, Smartsheet helps you adapt and evolve as quickly as your work demands.

Unifying platform

Smartsheet brings together people, data, apps, content, and conversations, all into one unifying platform that integrates with existing systems, and provides a single source of truth.

Frictionless collaboration

Smartsheet helps bring people together quickly, efficiently, and seamlessly, sharing information in real-time, so work is always moving forward.

Secure and scalable

Ensuring all users are empowered, security is key to protecting businesses without stifling innovation. Backed by enterprise-grade security, Smartsheet is built with best-in-class administrative controls.

“Our Project Portfolio Management (PPM) has been great, because we now have visibility to **all** the projects, instead of just a few.”

“This PPM process has really transformed the way we work.”

–Commercial Operations leadership / Global Biologics Company
