

Transform the way your organization works.

Right now, life science leaders want to orchestrate positive change, but have too much to work on and not enough time to get it done.

Sound familiar? We get it.

At Enterey Consulting, we believe you deserve the support required to get the job done right. We also know that you need proven process improvement and effective project management solutions to push your initiative across the finish line.

Smartsheet: A platform for Standard Operating Procedures

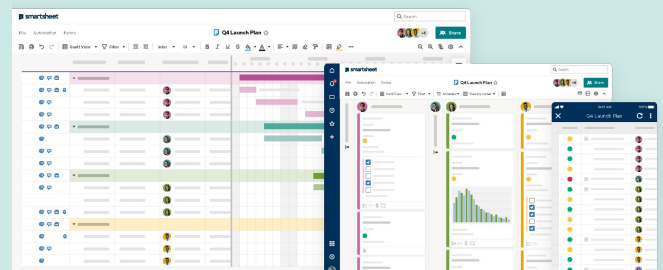

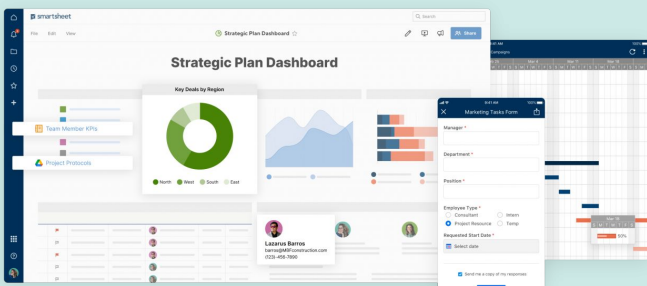

Smartsheet provides a transparent and holistic view of all current activities to standardize methodologies and maximize efficiency for both internal and external workflows on all levels, leading to effective executive-level decision making clearly aligning with objectives.

What was Enterey’s approach to SOP revision?

- Communicated with executives to develop an effective SOP process
- Created a flexible and adaptable process
- Made process visible company-wide
- Implemented automated approval workflows
- Created dashboard for visibility of approvals, status, and other metrics

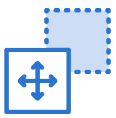

Why is Smartsheet useful for SOP revision?

- 
 • Increased SOP approval rate from **1.6 to 4.8 per month**
- 
 • Increased SOP modification rate (e.g. drafting, revising, or retiring) by ~10x (from **0.7 to 6.5 per month**)
- 
 • **Improved transparency and visibility** through visual display and dashboards
- 
 • Improved SOP processing with a **75% time reduction**

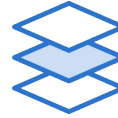

Smartsheet is loved by enterprises around the world.
